## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 10-13, 17, 23, 24, 43, 51, 52, 53, 61-64 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A single claim that claims both apparatus and method step of using the apparatus is indefinite under 35 U.S.C. 112, second paragraph. In *Ex parte Lyell*, 17USPQ2d 1548 (Bd. Pat. App. & Inter. 1990). For claims 1, 10-13, 53 and 61-64, the claims are claiming the gap being determined by the ratio of the gap to the line speed. The line speed is a process limitation in the apparatus claim. For claims 17, 23, 24, 43, 51 and 52, the gap is determined by the contact time as the material leaves the opening, this is also to be set by line speed in the dependent claims. These claims seem to be process limitations of the apparatus.

### ***Double Patenting***

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double

patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-64 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8, 14-18, 21-29 and 30-35 of U.S. Patent No. 6428297 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of the claimed invention and the claim limitations of the patented invention are the same. The difference is the language for determining the gap but both claim the same 1.0 to 20.0 Milliseconds (ms) or 0.001 to 0.020 second contact time or 4.57mm or less gap. The claims are broadened by not structurally claiming annular ridge extending from the cylindrical body, however, both claims have an extruder, extrusion die, chock ring and the gap differences. The gap differences are the same in the claims of both the application and the patented invention.

#### ***Terminal Disclaimer***

The application/patent being disclaimed has been improperly identified since the number used to identify the patent being disclaimed is incorrect. The correct number is 6,428,297.

***Response to Arguments***

5. Applicant's arguments filed 6/3/2004 have been fully considered but they are not persuasive. The terminal disclaimer contains an error and therefore the double patenting rejection remains. Additionally, the claims contain both apparatus and method steps of using the apparatus, rendering the claims indefinite under 35 U.S.C. 112, second paragraph.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
